Summary

As a Frontend Engineer, I prioritize excellent user experience and possess the skills to deliver optimal solutions for both business and users. My expertise in A/B testing provides insights into user behavior and its effect on conversion rates. I am eager to continually enhance my skills and contribute to a team dedicated to delivering maintainable code and exceptional UX.

Skills

Javascript, Typescript, React.js, Next.js, Redux, Mobx, Jest, Cypress, Node.js, SASS/SCSS, Stylus, REST, GraphQL, Webpack, WebSockets, Sentry, Datadog, Vercel, PostgreSQL, MongoDB, MySQL, WordPress

Experience

Delivery Hero / Senior Software Engineer

15 MARCH 2021 - PRESENT, BERLIN, GERMANY

Responsibilities:

- Participated in the development and maintenance of the Ops Portal SDK, enhancing capabilities for Delivery Hero plugin developers.
- Engineered and sustained Ops Portal plugin tools, significantly improving the development experience for Delivery Hero's plugins engineering teams.
- Architected the Delivery Hero SSO front-end application, ensuring seamless user authentication.
- Led the entire lifecycle of application features, from conceptualization to successful release.
- Redesigned Ops Portal, transitioning from Material UI to the internal Armor Design System, modernizing the user interface.
- Implemented performance improvements and optimizations, resulting in a notable decrease in initial load time (almost double).
- Comprehensive monitoring solutions using Datadog, enhancing system reliability and visibility.
- Integrated Sentry, allowing further migration from Datadog and decreasing the costs.
- Initiated and directed the Inner Sourcing project, empowering developers across the company to contribute to Ops Portal.
- Introduced and enforced code styling standards, ensuring code quality and consistency.
- Authored and maintained detailed documentation, facilitating better understanding and usage of systems.
- Launching new brands (setting up Ops Portal, branded design etc).
- Composed and reviewed RFCs, contributing to technical discussions both within and outside the team.
- Delivered technical support to Delivery Hero plugin developers, resolving complex issues and improving productivity.
- Technical support for Delivery Hero plugin developers.
- Participated and shared knowledge within the Developers Web Service Frontend Chapter, fostering a collaborative learning environment.

Utilized skills and technologies: React.js, Typescript, ES6, Mobx, Redux, Next.js, Jest, Cypress, Webpack, Github Actions, DroneCI, Sentry, Datadog, GoLang
